

PRODUCT EQUIPMENT

There are more than 10 fin molds of various specifications, 10 production lines, 3 sets of full automatic U-pipe bending machines, 3 sets of full-automatic expanding machines with two service positions, 1 heat pump drying room pioneered by domestic heat exchanger manufacturers and 3 sets of imported digital leak detectors in the company.

PRODUCTION EQUIPMENTS

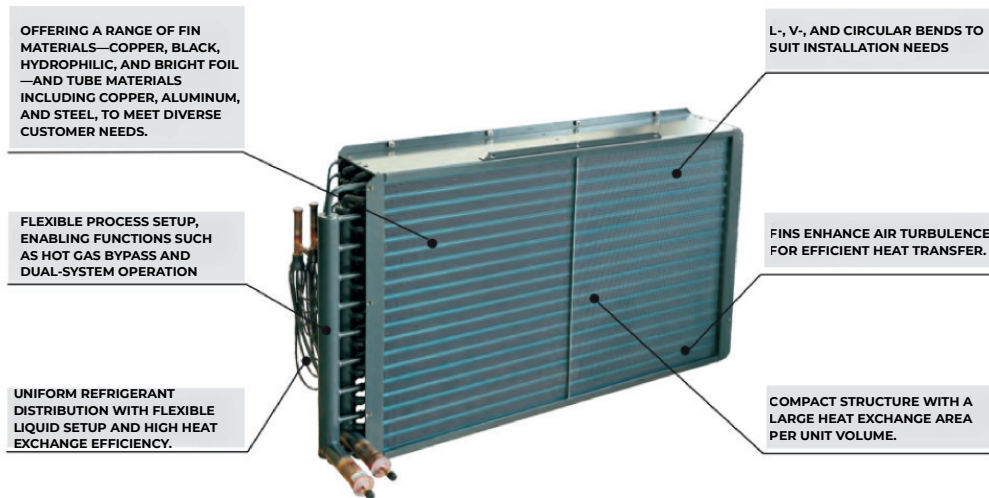

DIE SPECIFICATION

SPECIFICATION FOR ALUMINUM(COPPER) TUBE (mm)	HOLE DISTANCE*ROW DISTANCE (mm)	FIN TYPE	FIN PITCH (mm)
Φ 7	21*18.2	Louver, Sine Wave, Flat Fin	1.2-3.0
	21*12.7	Louver, Sine Wave, Flat Fin	1.2 - 2.5
	19.05*16.5	Louver, Sine Wave, Flat Fin	1.2 - 2.5
Φ 7.94	25.4*22	Louver, Sine Wave, Flat Fin	1.5 - 3.0
	22*19.05	Louver, Sine Wave, Flat Fin	1.5 - 3.0
Φ 9.52	25.4*22	Louver, Sine Wave, Flat Fin	1.5 - 5.5
	25*21.65	Louver, Sine Wave, Flat Fin	1.5 - 5.5
Φ 12.7	31.75*27.5	Sine Wave, Flat Fin	1.5 - 6.0
	38.1*33	Sine Wave, Flat Fin	1.5 - 9.0
Φ 15.88	38.1*33	Sine Wave, Flat Fin	1.5 - 6.0
	50*50	Sine Wave, Flat Fin	1.5 -10.0

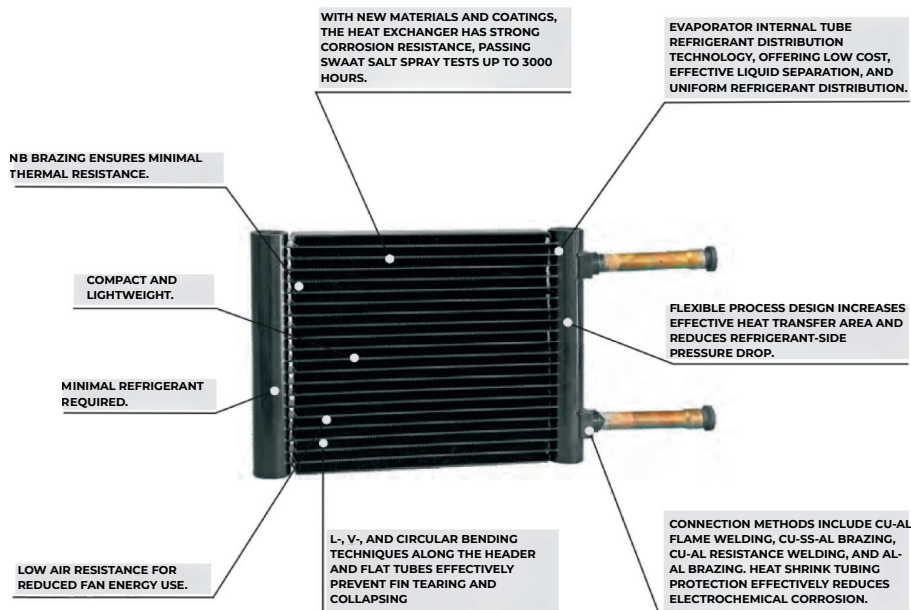

FINNED TUBE HEAT EXCHANGER

Finned tube heat exchanger is one of the mainstream of the air heat exchanger and air-conditioning devices. It is assembled by tube, fin, frame and header, and can be used as evaporator and condenser to adjust indoor temperature and is widely applied in commercial, civil, military, medical, transportation field.

MICRO-CHANNEL HEAT EXCHANGER

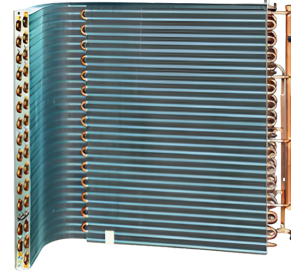

Microchannel heat exchanger (MCHE) is a highly compacted heat exchanger. Compared with traditional finned tube heat exchangers, MCHE adopts micro size heat transfer technology with smaller size and lighter weight. The heat exchanging efficiency is increased by 50%, the refrigerant charging volume is reduced by 50%, and the fan power consumption is reduced accordingly. It is widely used in such fields as domestic air conditioning, commercial air conditioning, precision computer room air conditioning, heat pump water heater, refrigeration, container air conditioning, railway air conditioning, automobile air conditioning etc.

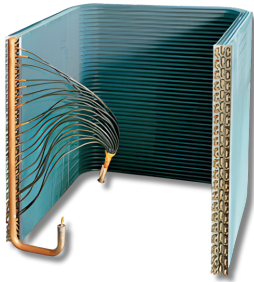

HEAT EXCHANGERS FOR DOMESTIC & COMMERCIAL AIR CONDITIONING

Micro-channel Heat Exchangers For Domestic Air conditioning

Fin Tube Heat Exchangers For Domestic Air conditioning

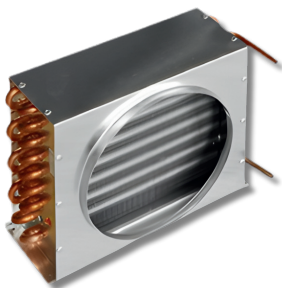

Fin Tube Heat Exchangers For Commercial Air conditioning

Micro-channel Heat Exchangers For Commercial Air conditioning

HEAT EXCHANGERS FOR FOOD REFRIGERATING

Fin Tube Heat Exchangers For Food Refrigerating

Condenser for Cold Storage

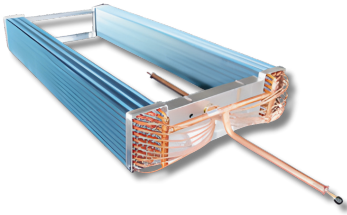

Miniature Display Cabinet Condenser

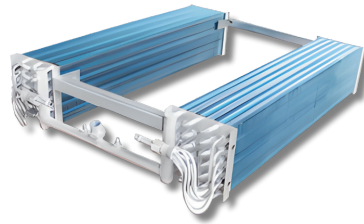

Cold Storage Evaporator

HEAT EXCHANGER FOR **AUTOMOBILE AIR CONDITIONING**

Stainless Steel Heat Exchangers For Electric Power Unit

All Aluminium Heat Exchangers For Air Conditioner Of Passenger Train

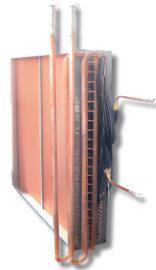

Micro-Channel Heat Exchangers For Automobile Air Conditioning

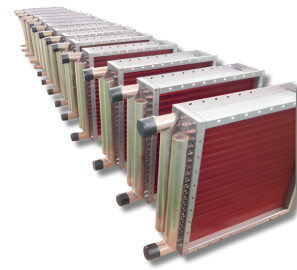

HEAT EXCHANGER FOR **MARINE AIR CONDITIONING**

Marine Air Conditioner Heat Exchanger

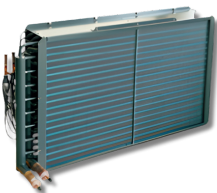

Marine Air Conditioner Heat Exchanger

Marine Cooling System Heat Exchangers

HEAT EXCHANGERS FOR **RAILWAY AIR CONDITIONING**

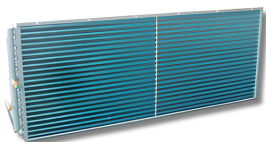

Fin Tube Heat Exchangers For The Train Air Conditioning

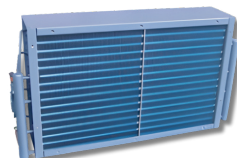

Condenser For Subway Air Conditioner (Black Anticorrosive Aluminium Foil)

Subway Air Conditioning Evaporator (Black Anticorrosive)

Air Conditioner Condenser For Bullet Train

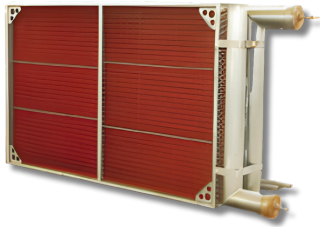

Light Rail Air Conditioner Heat Exchangers

Micro - Channel Heat Exchanger The Train Air Conditioning

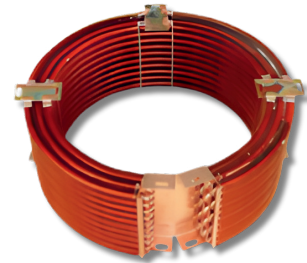

HEAT EXCHANGERS FOR **PRECISION AIR CONDITIONING**

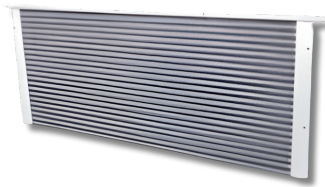

**Fin Tube Heat Exchanger
For Nuclear Power Products**

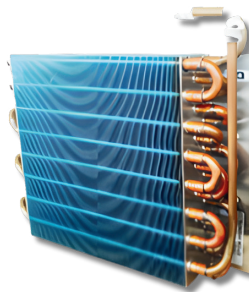

**All ALuminium Heat
Exchangers
For Air Conditioner Of
Passenger Train**

**Micro-Channel Heat
Exchangers
For Automobile Air
Conditioning**

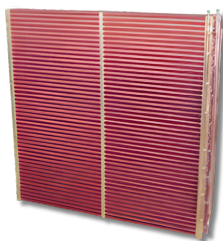

**Marine Air Conditioner
Heat Exchanger**

**Marine Air Conditioner
Heat Exchanger**

**Marine Cooling System
Heat Exchangers**

**Fin Tube Heat Exchangers
For The Train Air
Conditioning**

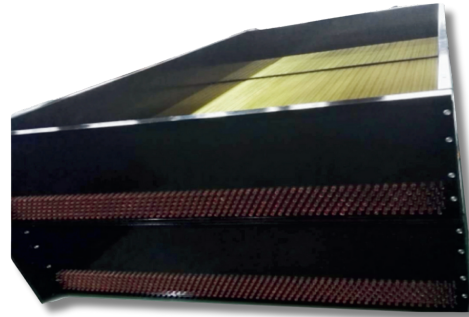

**Condenser For Subway Air
Conditioner
(Black Anticorrosive
Aluminium Foil)**

LARGE HEAT EXCHANGER

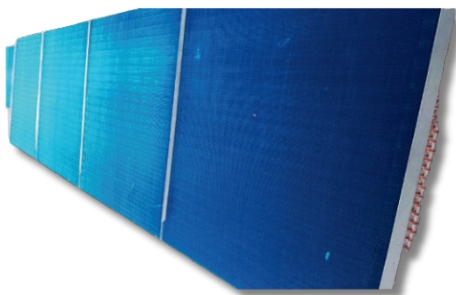

Large Heat
Exchangers

Large Heat
Exchangers

SURFACE AIR COOLERS

SURFACE AIR COOLER
